# 2<sup>nd</sup> ANNUAL ANIMAL MICROBIOBOME CONGRESS USA

**Manipulating the livestock microbiome to  
promote health and improve feed efficiency.**

**13-14 March, 2019 | Kansas City, MO.**

- +** Understand the latest innovations through unpublished and translatable data to guide your own future research strategies in manipulating the microbiome
- +** Form collaborations with top animal nutrition and pharmaceutical companies to advance your R&D capabilities in sequence-platform expansion, pro-biotic manufacture, and other novel alternative strategies
- +** Learn how the manipulation of the microbiome of livestock animals can be used effectively as an alternative to antibiotics and explore how it can be incorporated into large scale animal production practices

**Speakers  
Include:**

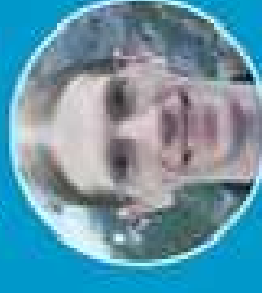

**Margie Lee**  
Head of Department at  
Biomedical Sciences and  
Pathobiology, VA Tech

**Megan Niederwender**  
Assistant Professor at  
Kansas State University

**Scott Gustin,**  
Managing Director,  
Veterinary Services at  
Tyson Foods

**Curtis Huttenhower**  
Associate Professor  
at Harvard School of  
Public Health

**Hyun Lillehoj**  
Research Immunologist  
at USDA-ARS

**Mike Salter**  
R&D Facilitator  
at AB Agri

**“ I was amazed at the  
quality of speakers and the  
progress that is being made  
in all species regarding the  
animal microbiome. ”**

**– Scott Gustin**
